A. TERMS OF REFERENCE

Engagement of two TAs for development of Guidelines for engaging Third Party Logistics (3PL) providers, Service Level Agreement (SLA) and Accountability framework

Location: Abuja

Grade: Consultant

Project / Program: Nigeria Global Fund RSSH-NACA

Reports To: NPSCMP

1. Background

The Federal Ministry of Health through the National Product Supply Chain Management Programme (NPSCMP) of the department of Food and Drug Services has the mandate to coordinate all health sector supply chain activities in the country. In achieving this mandate NPSCMP is disposed to partnering with competent private sector organizations to deliver supply chain services in all the states. **This PPP model is in alignment with the National Health product strategic plan 2021-2025 and guided strictly by the 2022 integrated LMD Framework of the FMOH.**

2. Context

In conducting this assignment, considerations will be given to the following, amongst others:

- a) The National Health PSM strategy 2021-2025 and its Blueprints
- b) Definition of “state-ownership of LMD”
- c) State adoption/adaptation of standards (templates)
- d) The transitional state of the national supply chain system including LMD
- e) Standards that are realistic while aligning with Donor’s aspirations regarding the conveyance of products funded through their support.
- f) The synergistic benefits tied to LMD for the PHC level.
- g) Adoption of LMD models by states
- h) Lessons from the 4PL management of Malaria and HIV products within the public health programmes and lessons from ownership of LMD by the TB programme
- i) Integration of the public health programmes (PHP) with essential medicines. This calls for the benchmarking of PHP costs with standard Essential medicines – with regard to cost parity
- j) LMD efficiency drivers

3. The standards

The use of the right tool for contracting 3PL providers, developing Service level agreements (SLAs), performance tracking, correctly undesirable trends and resolving issues/conflicts, holding stakeholders accountable, etc. - is an essential component of this model in optimizing the role of transforming governments as the chief steward of supply chain.

4. Description and purpose of assignment

NPSCMP wants to engage the services of two (2) health commodity supply chain management systems experts that will support the development of Guidelines for engagement of Third-Party Logistics company (3PL), Service Level Agreements (SLAs) and Accountability Framework for Last Mile delivery (LMD) services and/or warehousing in 36 States plus FCT. The assignment will consider the context presented above. The guideline will specify the critical decisions to make and factors to consider when engaging 3PLs, SLAs will focus on integrated management of public health products and essential medicines, storage at various state Central Medical Stores, Last Mile Distribution to health facilities, LMD route mapping for commodities. This agreement is between State governments and 3PLs. The accountability framework is to monitor the integrated management system with focus on the required infrastructure, management, stakeholder coordination, accountability etc

5. Reporting line

These TAs will work under the directive of the National Coordinator, through the relevant technical leads in NPSCMP, in collaboration with state and national stakeholders to develop Guidelines for engagement of 3PL, SLA and accountability framework for states to adopt or adapt.
